Article 2 Applicability

Except as otherwise provided by law and regulation or by the articles of incorporation, financial and business matters between this Corporation and any of its related parties shall be handled in accordance with the provisions of these Procedures.

Article 3 Definition

The term “related party” referred herein shall be determined in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

The term "affiliated enterprise" as used herein means an enterprise that, in accordance with Article 369-1 of the Company Act, exists independently and has either of the following relationships with this Corporation:

1. A relationship of control or subordination.
2. A relationship of mutual investment. In determining whether a relationship of control or subordination under the preceding subparagraph exists, the substance of the relationship shall be considered in addition to the legal form.

Article 4 Principle

This Corporation shall establish an effective internal control system designed for transactions with related parties (including affiliated enterprises) in regard to its overall operational activities, and shall continue to review the system in order to adapt to changes in the internal and external environment and ensure that the system's design and operation remain effective.

This Corporation shall ensure that any subsidiary develops an effective internal control system, taking into account the laws and regulations of the jurisdiction in which the

subsidiary is located and the nature of its operations. For any related party that is not a public company, this Corporation shall still, in consideration of the degree of influence it has on this Corporation's business and finances, require that it develop effective systems for internal control and for managing financial, business, and accounting matters.

Article 5 Operation supervision

In addition to implementing the adopted internal control system, this Corporation shall pay close attention to the following matters when exercising supervision over the operation and management of its affiliated enterprises:

1. This Corporation shall obtain an appropriate number of director and supervisor seats in the affiliated enterprise in accordance with the percentage of the shares it holds.
 2. A director that this Corporation assigns to an affiliated enterprise shall regularly attend the affiliate's board meetings, and in order to monitor its operation, shall carefully review its corporate objectives and strategy, financial position, business performance, cash flows, and important contracts, as reported by the various members of the affiliate enterprise's management. The director assigned to the affiliated enterprise shall ascertain the cause of any irregularity found, compile a record, and report the matter to the chairperson or general manager of this Corporation.
 3. A supervisor assigned to an affiliated enterprise by this Corporation shall supervise the affiliate's business operations, investigate its financial and business conditions, and review its books, records and audit reports, and may also request reports from the affiliate's board of directors or managerial officers. For any irregularity that may be found, the supervisor assigned to the affiliate shall ascertain the cause, compile a record, and report to the chairperson or general manager of this Corporation.
 4. This Corporation shall assign competent personnel to assume important positions at its affiliated enterprise, such general manager, financial officer, or internal audit officer, in order to assume the duties and responsibilities of management, decision-making, and supervision and evaluation.
 5. This Corporation, in consideration of the type of business, scale of operations, and number of personnel of a subsidiary, shall instruct the subsidiary in the procedures and methods for establishing an internal audit unit and adopting internal control system self-inspection operations.
 6. In addition to reviewing the audit reports or self-inspection reports submitted by
-

each subsidiary, the internal audit personnel of this Corporation must also carry out audits of the subsidiaries on a scheduled or unscheduled basis. 7. Subsidiaries of this Corporation shall regularly submit monthly financial statements for the preceding month before the 10th day of each month, including balance sheets, income statements, statements of expenses, statements of cash flow and cash flow forecasts, accounts receivable aging schedules and statements of delinquent accounts receivable, aging inventory analyses, derivatives trading, and statements of loans to others and endorsements/guarantees. The division of powers and responsibilities between this Corporation and its affiliated enterprises with respect to personnel management shall be clearly identified, and personnel transfers between the two shall be avoided. However, where personnel support or transfer is indeed necessary, the scope of work, division of powers and responsibilities, and allocation of costs shall be specified in advance.

Article 7 This Corporation shall establish an effective system of communication with each affiliated enterprise with respect to financial and business matters, and to mitigate credit risks, shall regularly conduct comprehensive risk assessments of their banks, principal clients, and suppliers. With respect to an affiliated enterprise with which it has financial and business interactions, this Corporation shall especially maintain close control over material financial and business items for the purpose of risk management.

Article 8 Lending funds and endorsement and guarantee
Any loans or endorsements/guarantees between this Corporation and a related party shall be processed in accordance with the provisions of the Procedures for Lending

Funds to Other Parties and Endorsement and Guarantee Procedures prescribed by this Corporation.

Article 9 Purchase, sale and service transactions

Price terms and payment methods shall be expressly stipulated for any business interaction between this Corporation and any related party. The purpose, pricing, and terms of a transaction, and its formal and substantive nature and the related handling procedures, shall not differ markedly from those of a normal transaction with a non-related party, nor may they be obviously unreasonable.

When business needs require the purchase of finished products, semi-finished products, or materials from a related party, purchasing personnel shall thoroughly evaluate the fairness of the price quoted by the related party based on market prices and other transaction terms and conditions. Except in special circumstances, or given advantageous conditions that differ from those of ordinary suppliers, under which the granting of preferential pricing or terms of payment can be reasonably stipulated, any other prices and payment terms shall be commensurate with those offered to ordinary suppliers.

Price quotes for the sale of any finished products, semi-finished products, or materials to related party shall be made with reference to current market prices. Except in cases of long-term cooperation or other special factors that are different from ordinary clients, under which reasonable stipulations may be made to grant preferential pricing or terms of payment, any other prices and payment terms shall be commensurate with those offered to ordinary clients.

For professional or technical services provided between this Corporation and a related party, both parties shall enter into a contract stipulating the scope of the services, fees charged, time period, payment terms, and after-sales service. The contract shall be carried out under the authority of each level of this Corporation's officers, and all contract terms and conditions shall comply with normal business practice.

By the end of each month, the accounting personnel of both this Corporation and its related parties shall perform cross checks of the purchases and sales of goods between them for the preceding month and the related balances of accounts payable and receivable. If any discrepancies are found, accounting personnel shall identify the cause and prepare a reconciliation statement.

Article 9-1 For purchases and sales of goods, professional or technical services provided between this Corporation and a Related Party, the transaction amount of which during a whole year is expected to be five percent of this Corporation's most recent total consolidated assets or net value of consolidated business income in the most recent

Article 11 Provisions for financial or business interaction

With respect to any financial or business interaction between this Corporation and any related party that requires a resolution of the board of directors, full consideration shall be given to each independent director's opinion. Specific opinions by independent directors expressing assent or dissent, and the reasons for dissent, shall be included in the minutes of board meetings.

When a director him/herself or the corporation he/she represents is an interested

party with respect to a particular agenda item and there is a likelihood that the company's interest may be compromised, that director shall enter into recusal and may neither participate in the discussion of nor vote on that item nor exercise voting rights as proxy for another director. Directors shall maintain self-discipline among themselves and may not enter into relationships of inappropriate mutual support with other directors.

If a director's spouse, blood relatives within the 2nd degree of relationship, or a company controlled by that director is an interested party with respect to an agenda item as mentioned in the preceding paragraph, the director him/herself will be deemed as an interested party with respect to that agenda item.

Upon discovering that, in the course of their duties, the board of directors or a director has committed a violation of law or regulation, the articles of incorporation, or a shareholders meeting resolution, an independent director shall immediately notify the board of directors or the individual director to cease the misconduct, and shall take appropriate measures to curb expansion of the misconduct. When necessary, an independent director shall also file a report with the relevant regulatory authority or agency.
